FROM OUR OFFICE TO YOUR HOME!

The staff at Robinson & Prijic Family Dental Associates would like to bring you our annual Tooth Talk Christmas greetings. We extend our warmest wishes for a joyful, happy and healthy holiday season!

Dental Health Month

Once again February has been declared Dental Health Month. Each year, the doctors and staff at Robinson & Prijic try to accommodate as many classrooms as we can. Due to the high demand for our presentations, we do have to limit the number we can present. The doctors and staff members present a 30-45 minute informative, interesting and fun program. Our goal is to get each child active in the program in a fun way to stimulate their interest in dental health. If you are interested in the program please call Kathy at our office at 756-1229 to schedule a time for us to come to your classroom.

If you are a fan of Social Media, look for our office on Facebook or Twitter and become a fan. We post updates frequently, with tips on dental health, fitness, lifestyles and fun contests with prizes, as well as fun and interesting facts about our office and staff. It is a great way to keep in touch with our office! Go to: www.facebook.com/robinsonprijic and "like" our page!

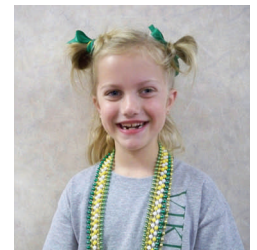

Great Job Brushing!

No Cavity Club Winners

The following patients were our **No Cavity Club** winners. They each received a stuffed animal or gift certificate.

Carter Smalley

Haleah Boys

Give Kids a Smile

Once again our office will participate in the national "Give Kids a Smile". The selected day nationally is February 4, 2011. All 5 doctors and 20+ staff members will volunteer their time on this day to treat up to 100 underserved children in the area. The office will provide exams, cleanings, fluoride treatments, sealants, and fillings on children that would otherwise not be able to afford this dental care. With the high level of unemployment in the area we are hoping to give back to the community with this very popular event.

Dental Insurance Issues

At Robinson & Prijic Family Dental Associates, we realize life is complicated enough without dealing with different insurance issues. There now are many different insurance plans like HMO, capitations, in-network, out-of-network, etc. These are all terms the dental insurance companies now use as a means to provide employers with ways to decrease their insurance premiums.

Although sometimes it may sound like you can't come to our clinic, that is rarely the case. Just call our office and our staff will do all the fact finding, checking the different coverages and confirming that you indeed can come here with the same coverage. One quick phone call to our office and we will resolve any issue you have with insurance.

We Love our Patients and Their Family & Friends

Surrounded by the busy hustle and bustle of an active, friendly dental practice, it is easy to think there is no room for new patients. Nothing could be further from the truth. We love our work, and part of that is the excitement of getting to know new patients, as well as the satisfaction of successfully providing dental care for long term patients. When you refer your friends, colleagues or family to our office, it makes our day. We are happy you feel comfortable and at ease in sending your friends and family to us. You can be assured we will provide them with the same careful and professional care you have received. We appreciate the referrals and thank you for your confidence.
